Rock*. RockonPublishing. 2004. ISBN0-9726255-1-8.

Earth Changes Websites

National Geographic—Videos

This site has excellent video clips of earthquakes, landslides and volcanoes .Once at the video site, click Environment > View All > then search using topic (ie: earthquakes, etc.)

<http://video.nationalgeographic.com/video/>

Windows to the Universe—Volcanoes

This site is about how volcanoes form. It shows some pictures and also shows and explains the different kinds of volcanoes that exist.

<http://www.windows.ucar.edu/tour/link=/earth/interior/volcanism.html&edu=elem>

Earth Science World Image Bank

This site shows many pictures of the past effects that earthquakes have caused, such as landslides. It explains each historic event as well.

<http://www.earthscienceworld.org/images/search/results.html?Keyword=Earthquakes#null>

Landslides

This site describes what a landslide is, what its effects are, and how it is created. It also shows multiple pictures of past landslides.

<http://www.ussartf.org/landslides.htm>

Puget Sound Landslides

This site is about landslides that have taken place near the Puget Sound. It shows drawings of different kinds of slides and gives information on emergency procedures when there is a slide, as well as other safety information.

<http://www.ecy.wa.gov/programs/sea/landslides/about/about.html>

Volcanoes and Earthquakes

This site shows mostly volcanoes but does have information about earthquakes. A good site for a 4th-5th grader to research. Each blue link goes to pictures of historic volcanoes and more information on that event.

<http://www.pibburns.com/volcanos.htm>

Live Science: Image Gallery—Earthquakes

This shows an image gallery for past earthquakes and the damage they have caused. It also has a gallery for volcanoes within the site.
<http://www.livescience.com/topics/earthquakes/>

The Science of Earthquakes

This site shows why earthquakes occur, how scientist measure them and diagrams/pictures of facts about earthquakes.
<http://earthquake.usgs.gov/learn/kids/>

Cascades Volcano Observatory—Learn About Volcanoes

A FAQ site to help learn about volcanoes. Contains student-friendly information if students want to do research.
<http://vulcan.wr.usgs.gov/Outreach/AboutVolcanoes/framework.html>
